

Application Installation Instructions

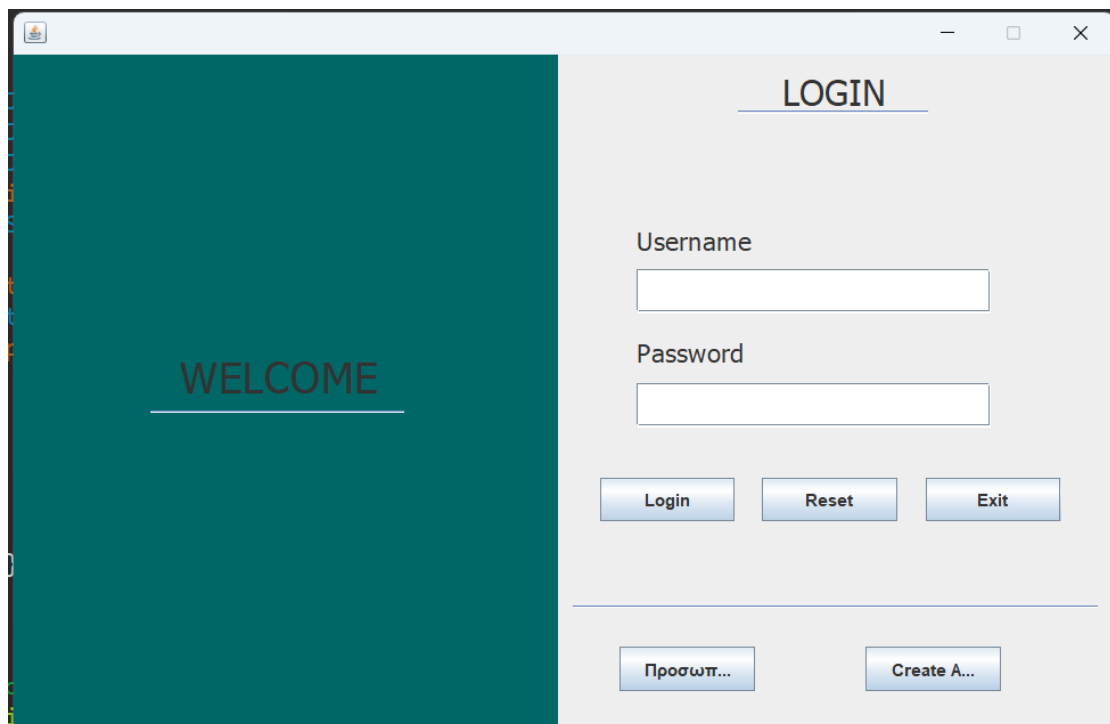

Step 1: You must install the database (the .sql file) and create a user from the command line with the following credentials:

Username: c##elvagio2

Password: tiger

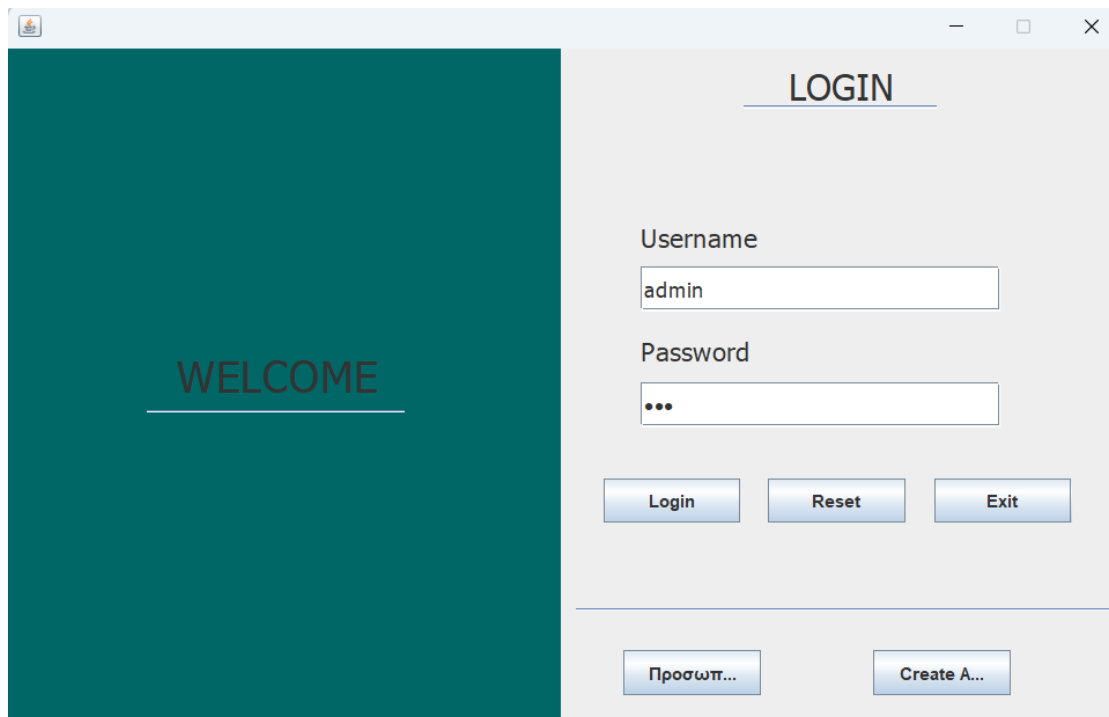

Step 2: Next, install the file **Date.jar**.

Step 3: Then, run the **Date.jar** file, and the next page will open.

The screenshot shows a Java application window with a title bar containing standard Windows window controls (minimize, maximize, close). The window is divided into two main sections. The left section has a dark teal background with the word 'WELCOME' in a light-colored, serif font, underlined. The right section has a light gray background and is titled 'LOGIN' in a bold, serif font, underlined. Below the title, there are two text input fields: 'Username' and 'Password'. Below these fields are three buttons: 'Login', 'Reset', and 'Exit'. At the bottom of the window, there are two more buttons: 'Προσωπ...' and 'Create A...'. The window appears to be a simple login interface for a database application.

Step 4: Enter "**admin**" as the username and "**123**" as the password, then click the **Login** button.
